

Securing Water for our Future

MEMBERSHIP APPLICATION

What are the benefits of joining Tri-State?

- 1. You become part of the decision making process.
- 2. You get a place in line for the water supply that will eventually flow.
- 3. You strengthen our regional response to the need for long-term, abundant, quality, affordable water supply.

Long-term water supply and infrastructure is vital to the health and development of any single community and to our region as a whole. Our regional coalition prevents competition for the same water through a cooperative approach. It's always better to be a part of the decision making process than to let others make decisions which will surely have an impact on your community as time passes and the regional demand for water increases. Communities who become members of Tri-State will make key decisions which could set the foundation for water availability for the next 50+ years.

Please write your responses below.

Your Organization	
Location(s)	
What is your organization's mission?	
How do your mission and our mission complement or supplement each other?	
Contact person and information	
If you are a water provider, how many connections do you have?	
If you are not a provider, please consult the chart below and tell us what category fits.	

Are you aware of any conflict of interest related to your membership?
